ESCAPE TO ALCATRAZ

...REVISITED

That's right, folks, we're going back! July 26-27 SCRA is returning to Alcatraz for another mini-DXpedition. Only this time we get to spend the night! This is a rare opportunity in that the general public is required to leave the island by 6:30 pm (on the last boat). We are going to the island under the Alcatraz Island Work Project / Overnight Program, which includes a 4-6 hour work project, cellhouse audio tour and tour of the island with the supervising Ranger. This program is available via a lottery selection process to groups of 15 - 35 participants. Through special negotiations by Larry KD6VUM, we will be allowed to set up and operate our equipment in shifts during the day (between work assignments) and all night.

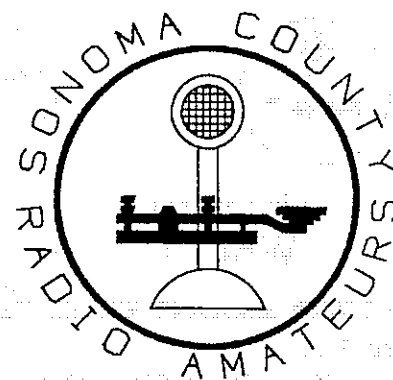

Not unlike the former residents of this facility, we have to pay our dept to society. Or more specifically, the Parks Service. While this is a work party, it is also a special program requiring a permit fee. Cost is \$25.00 per person age 9 to adult (no one under 9 please) and includes the ferry trip out and back. To spend the night

you MUST go out on the staff boat, which leaves at 8:45 am. You may return on any ferry. If you don't want to spend the night you are "free" to come out on any regular tour boat but remember, it's summer and the tours are regularly sold out days ahead of time. Parking is limited and expensive, but Joe KM6TN has arranged some secured spaces nearby (by the submarine Pampanitos - see the July 2 Program note). Again, there will be a charge, but much less if you found your own (about equivalent to an afternoon at Pier 39). Carpooling is highly recommended, and we will be coordinating as the event gets closer.

What to bring? Well, everything! Food, beverages (no alcohol or glass containers), warm clothes (dress in layers), sleeping bag, etc. Larry will provide a list. The Park Service is providing barbecues and supplies (no food) for our evening meal. It's going to be a great time. Don't be disappointed, reserve your cell early. Once we have 35, that's it! Contact Larry Gustafson KD6VUM @ 523-0266 or kd6vum@sonic.net for more info.

Sonoma County ACS Notes

de Eran KD6KVO

New ACS Unit in North County

At the Unit Leader meeting on May 19, it was agreed that the geographical unit extending from north of Santa Rosa to the Mendocino County line was too large to be effectively included in one ACS Unit, and the area was split into two groups: Cloverdale (with Geyserville) and Healdsburg (with Windsor). Walter KE6JIT has accepted the position of Unit Leader (UL) for Cloverdale. Jim W6ESJ, previously the UL for the entire area, remains for right now the UL for Healdsburg. However, Jim will soon be moving to Santa Rosa, and a new UL will need to be found for that area. Anyone who feels they would like to be considered for the job, please contact me via E-mail (preferred): glago@vom.com or by phone 996-1153.

Schedule for Unit Leader meetings

Also decided at the meeting on May 19, that the ACS Unit Leader group meet more regularly than in the past. It was agreed to meet every second month, on odd-numbered months, on the second Monday, at 7:00pm. Location always to be announced on the Monday evening nets the week or two beforehand. These open meetings, while valuable for UL's, are interesting for anyone with an interest in the county's emergency communications auxiliary.

The next scheduled meeting is on July 14, at 7:00pm, at Mary's Pizza in Rohnert Park.

Training and Drills

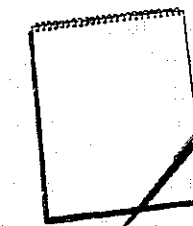

The SEMS training, with an emphasis on the new ACS "umbrella", has been postponed a couple of months, but is definitely still in the works. For those of you who took part in the 1995 SEMS training, it is highly recommended that you attend this newly designed session. Much has changed. And if you have never done a training in SEMS, you will need to do this one in order to be included as a trained ACS operator.

Also being planned: our annual drill, probably taking place in October to coincide with the ARRL nationwide drill. Details of both these training opportunities to be announced on the Monday evening nets over the next few months.

SCRA MINUTES

June 4, 1997

Submitted by Secretary
Steven Feil KD6CJR

The June 1997 meeting was called to order by President Steve Carniglia KV6A at 7:30 PM at HP Fountain Grove. Other officers present were: Secretary Steven Feil KD6CJR, Treasurer Joel Nadler KJ6LF, Members-at-Large Claude Jones AB6OL and Bill Hillendahl KH6GJV, Repeater Chairman Kelly Cureton KD6CJQ, Activities Chairman, Dave Willey KD6KWM and Public Service Chairman Marie Mappus KI6QY.

Visitors/New Members: There were 3 visitors present.

New Calls/Upgrades: KD6POC to Extra, KF6KSS and KF6KXQ are Techs.

The minutes for the June meeting were approved.

The Treasurers report by Joel Nadler KJ6LF is as published in Short Skip.

Activities Committee Report, by Dave KD6KWM: Dave promoted the monthly foxhunts, as always the 3rd Sat of the month. Check on 6.73 for more information on the morning of the hunts. Bill KO6ZG provided some testing stats (category, 1996/1997 ytd): new license, 11/13, code, 4/10, No Code, ?/9, Novice, ?/3. Alcatraz dates are July 26-27. There is a nonbudgeted fee of \$640 that the participants will need to fund as well as personal expenses.

Repeater Committee Report, by Kelly KD6CJQ: Please do not leave auto slot requests on answering machine. You may not get it. Use the forms provided. Net control for June is Chris KF6IVC, thanks.

Public Service Committee Report by Marie KI6QY: Thanks to all the May volunteers. June is all set for needed staffing. Harvest Century is July 19, Vineman is July 26.

RACES report by Steve AC6FR: We are getting many compliments from state level leaders on our organization and planning. Our location in the ready room is being moved as well as some furnishing upgrades. The area is now known as the Auxiliary Communications Center.

Lee KE6EAQ announced the upcoming Antenna Ordinance meeting June 26 at 3:00. The big issue is the building permit for over 12 feet.

Two silent keys were announced, KC6LWS and W6ITU.

Tracy WB6TMY announced the impending placement of his remotely operated transceiver. Contact him for more information. Station KPH is really closing this time. Contact Tracy if you are interested in a tour.

Steve AC6FR asked for help in resolving a situation with a handicapped ham in Healdsburg. The radio that was recently replaced was taken and wrecked. Any help with replacement or repair would be appreciated. Several suggestions were offered. It was decided to obtain the radio so that it could be evaluated.

John Wallack W6TLK is running for Section Manager again and asked for our support in his endeavor.

The program for the evening was preparation for Field Day on June 28-29.

Prizes for the raffle were provided by Radio Shack, ARDCO and HSC. Please patronize these fine establishments to show our thanks for this support.

James pulled Laurel KC6FKX for the membership lottery.

The meeting was adjourned at about 9:45 PM. Respectfully submitted by Steven Feil KD6CJR

SCRAPS

by Marie Mappus KI6QY

This has been a very busy weekend! The Terrible Two on Saturday and the Mini Vineman on Sunday. Thank goodness it is over!!

The Terrible Two

Saturday began with a beautiful sunrise and with that, over 200 riders headed out Willowside School for Calistoga. They cycled through Santa Rosa to Glen Ellen, over Trinity Grade and on to Napa and Calistoga. The route took them up 128 to Red Winery Rd. and on to the Geysers. Leaving the Geysers they rode to Cloverdale and then to lunch at Warm Springs Dam. After lunch they headed for the coast on Skaggs Spring Road. The temperatures were rising and this road is mainly up hill, with little or no shade and no rest stop until Camp Gualala. The camp is in a hollow and impossible for the radio operator to reach the repeater. Consequently, traffic has to be relayed to Net Control. The operator who is the relay must receive the traffic via simplex and then change frequencies to relay the information to the repeater. After leaving Camp Gualala the cyclists continue to Stewarts Point on the coast. They traveled down the coast highway to Fort Ross when they again turned inland and headed down Fort Ross Road to Cazadero. Monte Rio is the next rest stop. By now they are on the homeward stretch, heading toward the Santa Rosa finish line and a well earned rest.

The event for the most part was quite uneventful. However, there was one incident that caused a severe problem for some of the riders. Someone changed the route marker at the intersection of Harrison Grade and Fort Ross Road. They painted out the directions with black paint.

There were two incidents that really showed the mettle of the riders. One of the fellows fell and broke his clavicle on the Fort Ross road. He was determined to finish and rode the rest of the way back to the Willowside School. Another incredible incident also occurred. A cardiologist severely cut his finger while trying to cut a piece of wood out of one of his shoes. He cut the finger on his right hand about half way through. This happened before lunch. He bandaged it, rode to the lunch stop where it was rebandaged. He had called his doctor and explained what he had done and his doctor told him to continue on the ride. Believe it or not, the cardiologist rode 130 miles with a partially severed finger. There were also some minor crashes and breakdowns.

The route closed at 10:00 PM and there were still four riders, three of which were women, on the route between Cazadero and Hwy. 116. They refused to quit the race as they had their own sag. Since it was time for the Monte Rio rest stop to close, one of the hams took food out to them.

The lead rider, Dan Hopley, left Monte Rio at 4:11 PM. There were 242 registered entrants. Of these 28 were no-starters

leaving a group of 214 persons who began the race. The winner was Dan Hopley. His time was 11 hrs 34 min. He won by 17 min. ahead of a group of four other riders. He was in the lead at the first two rest stops. Then he took his time at lunch, leaving after a group of four riders. However, he caught up with them, passed them and after that continued in the lead all the way to the finish line. There were a few new records set though. One was a co-ed tandem bike and the other was an all female tandem. Also, it was the first time there was a female winner.

Many, many thanks to all the hams who helped with the Terrible Two. John KD2LQ, Doug KC6RHA, James KF6DHB, Jim KE6UAR, Dave KC6KWM, Ted KB6PTA, Peter N6JBV, Hank Q6DTV, Sarah N6FAX, Greg KE6FXK, John KE6RMC, Brian N6IYY, John WB6FRZ, Hollis KE6UDH, Bill KH6GJV, Richard KE6SKT, Al N1AL, And Steve KB6LMB. Many of these people went above and beyond the call of duty staying long over the end of their shift. A special thanks to these hams.

The Mini Vineman

We woke to a foggy Sunday morning and headed out to the Santa Rosa Airport Business Center (ABC). We were using the County OES Communications Trailer which was supposed to be there at 6:00 AM. Due to difficulties getting it hooked up it arrived at 7:00 AM. We then had to mount the antennas and do other chores to get ready for the event. Needless to say we were late getting on the air.

The race began at Johnson's Beach at 8:00 AM with the first wave of swimmers leaving at that time. The first swimmer was out of the water at 8:14. The swim part was finished by 10:00. At 8:16 Kelly KD6CJQ informed Net Control that the first rider was on River Road. At 9:46 the first runner crossed the finish line. While the race started one hour later than other years the entire event was finished by 12:30.

The winners on the men's side were: first place Christian Hesch an 18 year old from Morro Bay, CA, second to Brian White 17, of Fort Collins, Colorado, and third to Pete Kahn of Half Moon Bay, CA. The first female winner was Karen Checker Pfiffer of Santa Rosa. Congratulations to all of them.

My thanks to Lee KE6EAQ, Adam KD6POC, Bob WD6DPE, John KE6RMC, Joel KJ6LF, Ken N6MHG, Nadine KC6WUL, Bob K6GEV, Kelly KD6CJQ, James KD6GSF, Jim KE6VGV, Hollis KE6UDH, and Bill KH6GJV.

Upcoming Events:

Here is the calendar for the up coming events for July, August and September.

July 19, Healdsburg Harvest Century
 July 26, Vineman
 August 24, CRI Day on the River (tentative)
 September 20, National Beach Clean-up
 September 21, Clo's Classic
 September 27/28, Waves to Wine

VE Express

New Novice & Technician Question Pools...

...with Emphasis on RF Safety!

Effective July 1, 1997, new Novice and Technician question pools (Elements 2 and 3A) will be implemented for use on all future Novice and Technician examinations. These new pools must be used when creating Novice or Technician written examinations to be used on or after July 1, 1997.

These new pools contain the new, separate RF-Safety subelement (subelement 10) implemented as a result of FCC Rules changes implemented on August 6, 1996. This FCC action requires that five additional RF Safety exam questions be added to the Novice, Technician and General class written exams.

This July 1st, Novice and Technician exams must begin including the five additional RF Safety questions, while the five additional General class RF Safety questions will be added on July 1, 1998.

Novice Exam becomes 35-Questions on July 1st

With the addition of the five RF Safety questions, the Novice (Element 2) written test becomes a 35-question test on July 1, 1997. A passing score on the Novice exam becomes 26 questions answered correctly out of 35.

Technician Exam becomes 30-Questions on July 1st

With the addition of the five RF Safety questions, the Technician (Element 3A) written test becomes a 30-question test on July 1, 1997. A passing score on the Technician exam is 22 questions answered correctly out of 30.

New General Class Syllabus Released February 1, 1997

QPC Calls for Public Input to Future General Exam Questions and Advanced Question Pool Syllabus Topics

The National Conference of VECs Question Pool Committee (QPC) released a new General class (Element 3B) syllabus on February 1, 1997. Beginning February 1 and running through June 30, 1997, the QPC invites public (your) input on questions for future General class exams.

Your input is also invited in regard to the future Advanced syllabus topics. Input to the syllabus must be received by the QPC on or before September 30, 1997, to be considered in this years update cycle. Comments might include what would you like to see changed, added, deleted or otherwise modified in the future General class question pool or the future Advanced syllabus.

If you wish to offer input on the General pool questions, or future syllabus's or pools, direct your input to: QPC Chairman Raymond Adams, W4CPA, 5833 Clinton Hwy - Ste 203, Knoxville TN 37912-2500; with copies to Fred Maia, W5YI, POB 565101, Dallas TX 75356-5101; Scotty Neustadter, W4WW, 9710 Dortmund Dr, Huntsville AL 35803-1116; and to us at the ARRL/VEC.

LICENSE EXAM SCHEDULE

There will be a SCRA VE Session July 12 at HP Santa Rosa, 1400 Fountain Grove Parkway starting at 9AM. All license classes will be served.

WHAT TO BRING:

- √A photo identification or two non-photo IDs.
- √Your original and a photocopy of your current license (if you are currently licensed).
- √Any original valid CSCE's and photocopies.
- √Radiotelegraph license, if held (see VE).
- √Medical Exemptions (see VE).
- √Exam fee of \$6.25 - (cash - exact change is appreciated, or check to ARRL/VEC) except Novice license, which is free (Elements 1A & 2).

For more information contact Bill Kinder KO6ZG @ 894-9591.

Other upcoming exam sessions:

August 9 @ 0900 - VOMARC, 996-6461
 September 13 @ 0900 - MARC, 415-883-9789
 September 20 @ 0900 - SCRA Swap Meet in Sebastopol
 October 11 @ 1700 - SMRS, 762-9414

For schedules & information on North Bay Exams call the SCRA Hotline 707-579-9608 or check into the SCRA Website @ <http://cds1.net/scra>
